BOSCH

JhP / Environmental, Work Safety, Fire Safety and Prevention of Serious Emergencies Policy

Principal Points:

Occupational health and safety, environment protection, fire safety, and prevention of serious emergencies are interwoven in all activities of our company, and we apply the safety aspects already during selection and procurement of new technologies, technical devices, etc.

We provide consistent and qualified searching, evaluation, and elimination of risks, demonstrable informing of employees and involved state administration entities about the risks

We include our suppliers in our measures for occupational health and safety, environment protection, fire safety, and prevention of serious emergencies

BOSCH

JhP / Environmental, Work Safety, Fire Safety and Prevention of Serious Emergencies Policy

Health of our employees has high priority. We prevent environmental accidents or mitigate their impacts on persons, property, and environment.

We reinforce awareness of responsibility of our employees for protection of their own health, material values, and we develop their environmental mindset

In our activities, we strive for reduction of occupational injuries, illnesses, reduction of negative impact on health, environment, and property; we reduce the volume of dangerous wastes, improve quality of discharged waste waters, and use the resources considerately.

We inform all parties involved according to requirements of laws in force.
